- ▶ Quicker system performance allows you to access the music and talk you want faster.
- ▶ Long program descriptions (title/artist information) now scrolls across your screen, so you can easily see everything you want to know about what's playing now.
- ▶ The "All Channels" list now wraps to the beginning of the list so you never have to scroll backwards after reaching the end of the list.
- ▶ "Radio Replays" now shows you the total length of time available for each channel in your list.
- ▶ Now you'll always know when your favorite sports teams are playing with continuous Sports Ticker updates in the "Now Playing" screen.
- ▶ With a push of the "Synch" button on your home dock, you now control when you want your Stiletto to connect to your PC, instead of automatically starting every time.
- ▶ You can be sure that your Stiletto is shutting down now that a "Shutting Down" message appears every time.
- ▶ You can now disable the automatic 4-hour shut-down feature in a car-dock with our new menu option.
- ▶ You'll never have to guess if your Stiletto is locked now that new lock icon will appear to remind you when the keypad lock is engaged
- ▶ SIRIUS Internet Radio channels can be accessed using the same preset buttons used to select Satellite channels (SL100 only).

- ▶ When you press “Love” for an already “Loved” song, your Stiletto will save the most complete recording of the song.
